

Eurochiller Process Cooling Solutions

Your Trusted Partner for Process Cooling Services and Parts

Comprehensive Service Plans

- Tailored maintenance plans to keep your equipment running efficiently.
- Regular inspections and preventive maintenance to avoid costly downtime.
- Emergency and breakdown repair services available.

Parts for All Makes and Models

- Genuine parts for Atlas Copco and Eurochiller equipment.
- Genuine and/or aftermarket parts for all other makes and models.
- Fast delivery to minimise downtime.

Expert Services for All Your Cooling Needs

- Chillers
- Coolers
- Pumps
- Complete process cooling systems

Supporting Great British Manufacturers

- Proudly serving the UK's manufacturing sector.
- Specialised solutions for the plastics industry.

F-Gas Compliance

- Adhering to UK regulations for F-Gas checks.
- Certified technicians to ensure your systems are compliant.
- Regular checks to prevent leaks and ensure safety.

What You Need to Know About F-Gas Regulations

- **Leak Checks:** Equipment containing F-Gases must be checked for leaks regularly. The frequency depends on the amount and type of F-Gas:
 - At least once every 12 months for equipment containing 5 to less than 50 tonnes of CO₂ equivalent.
 - At least once every 6 months for equipment containing 50 to less than 500 tonnes of CO₂ equivalent.
 - At least every 3 months for equipment containing 500 tonnes or more of CO₂ equivalent.
- **Automatic Leak Detection:** Systems containing 500 tonnes or more of CO₂ equivalent must have automatic leak detection systems installed.
- **Record Keeping:** Maintain records of all F-Gas quantities, leak checks, and any servicing or maintenance performed.

Committed to Environmental Sustainability

- Using lower GWP refrigerants to reduce environmental impact.
- Implementing best practices to minimise refrigerant gas emissions.
- Helping you achieve your sustainability goals.
